

# The South Molton Triangle Project Update

December 2019

**We would like to wish you all a very happy holidays and a wonderful new year.**

We had anticipated that our third and final phase of public consultation would take place earlier this year. However, the team are still taking time to review Westminster City Council's draft policy and considering how best to progress our proposals considering this. We will continue to further update you in the new year.

## **Immersive Theatre on Davies Street**

Oliver Award-winning producers Hartshorn-Hook, have been busy bringing 56 Davies Street to life. In October they launched The Immersive Gatsby and we hope that some of you have already been to see the interactive show. We are pleased to be able to continue to offer local residents subsidised tickets for this event. Please enter the discount code GATSBYBYGROV when purchasing online at [www.immersivegatsby.com](http://www.immersivegatsby.com)

## **A Christmas Carol dining experience at 56 Davies Street**

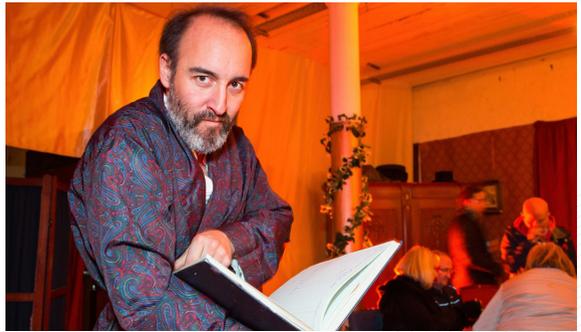

As well as Immersive Gatsby, Hartshorn-Hook have teamed up with experiential catering experts, Flavourology, to present an exciting rendition of the timeless Christmas classic, served over a three-course festive feast.

Visitors will join Jacob Marley in parlour games, Christmas songs and a little spirited trickery to

warm the heart of the bah-humbugging miser, Ebenezer Scrooge. It's a show about Christmas spirit, caring for those we love, and having a damn good knees up which is a perfect way to warm a cold winter's evening.

The full three-course sharing feast includes a Christmas dinner with roast turkey, port gravy, roast vegetables, traditional Victorian Christmas pies, all the trimmings and a fabulous dessert.

*Tickets from £66.45 (£52.45 concessions) available at [www.artstickets.co.uk](http://www.artstickets.co.uk). Open until 5th January.*

## 52-54 Davies Street

Our application on behalf of Hartshorn-Hook Productions for a temporary change of use at 52-54 Davies Street was approved by Westminster City Council in November. The building will be used by the theatre company for their ancillary uses and back-of-house, including things such as admin and storage of props and costumes.
